b- I think it a matter of common knowledge that American oil companies are concerned with and involved in the politics of the Middle East and the politics of Central & South America. The Central Intelligence Agency is similarly involved in the politics of the Middle East and Central and South America.

a- Duty of A.C.D. is to serve the President of the U.S.

b- A.C.D. is the S-2 of the President.

c- If we had sought to shift for policy views from Mr. McCona it would have provided little else than ammunition for them that ~~they~~ might disagree with his view and given issue.

12- Mr. Poston - Is there a more sensitive & strategic position than that of Ch of A.C.C.

13- Mr. Russell - I regard it as unfortunate that we are on the floor of the Senate all the things that C.D.A. is reported to have done & not done in foreign countries. I cannot see it serves any useful purpose.

a- In the very nature of things C.D.A. can neither admit nor deny a charge that it is interfering.

b- The position of A.C.D. was created to serve the Pres.

as Coun. in Ch of the Pres. Foreign Affairs of the U.S. should

the position
the responsibility go beyond
that point, whether by
reason of merit or court
operations, it would be

15 Mr Russell. The Committee
on armed Services did not
demand that Mr. McCone
liquidate himself of some of
his stockholdings before
assuming the position of
SEC as we would have
demanded had he been
nominated for Sec Def.
a - If there is any dereliction
it is not on the part of
Mr. McCone; it is on the
part of the Committee. In
view of the fact that the
CIA has little procurement
function and some number
of the Committee, could see

no necessity for compelling
this man to dispose of his
any stock he held any more than
I could see any necessity
in compelling an employer
of the Senate for example to
dispose of his stock.

b - This is much more
likelihood of a conflict
of interest on the part of
a Senator who holds a
great deal of stock in a
company with which the
Government does business as
there is for the Director
of Central Intel.
